Make it Happen | Skills Development Scotland

What to do?

1. Read through the Think It, Design It, Build It steps.

2. Write your details and application idea on the back of this form - being as creative as you can.

3. Have fun!

4. Hand your Inspiring Idea to your Teacher.

5. The winners will be chosen by our expert panel!

6. Skills Development Scotland will take inspiration from the winning ideas to create new resources for primary schools pupils.

7. All primary school pupils are invited to join so don't forget to tell your friends.

Think it

How many different jobs can you think of? What do you already know about these jobs? Think about a job you would love to know more about or a job you would like to do in the future.

Now think about how an app might be able to teach us about different jobs and make us aware of any important information.

Remember, this is your app, anything is possible so think of a way to explain jobs in a fun way for young people your age.

#wearethefuture

Design it

What is your app called? How would you describe it? How will your app tell us more about jobs? Be creative and draw what your app would look like to it's users. Focus on one job and the information we would need to know about this job. Tell us how the app would work. Remember, anything is possible!

Your app could teach us about jobs through words, stories, videos, games, quizzes or whatever else your imagination can think up!

Build it

The winning ideas will help the Skills Development Scotland team create new resources for primary schools pupils. These will explore lots of different jobs in a fun and interactive way.

Winners

Our expert panel will review all entries and pick prize winners from the following categories:

- Most creative app idea
- Most fun app idea
- Most informative app idea
- Best designed app idea

Submit your entries by 1st March 2023 to info@makeithappen.club
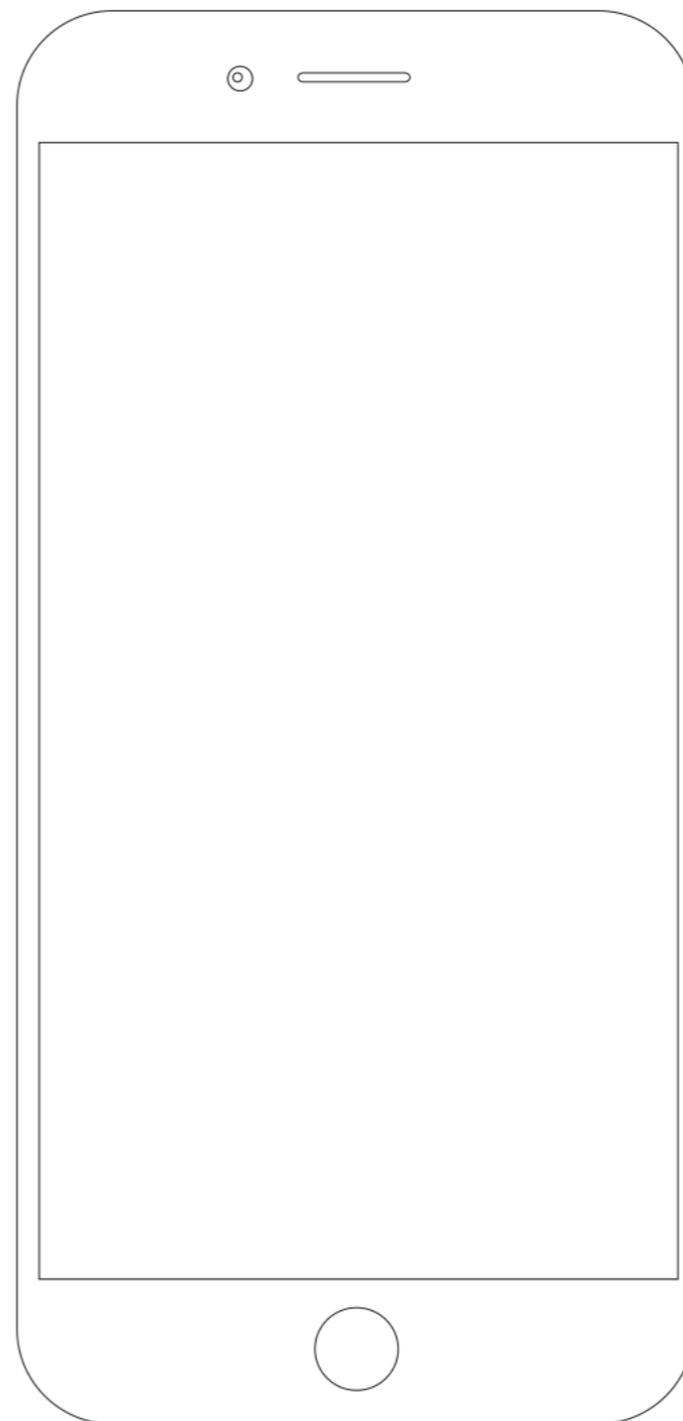

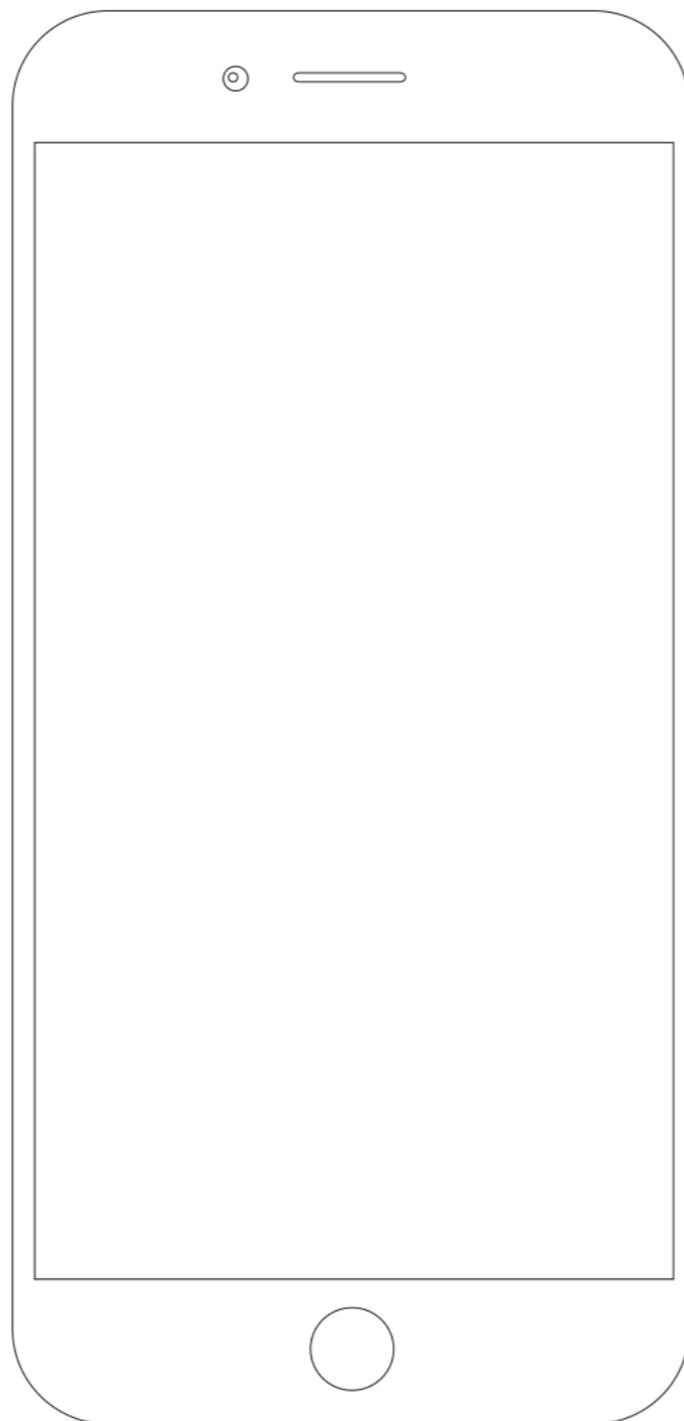

Pupil Name:
